

Office of Campus Security  
Snead State Community College  
\*2013 Annual Security/Fire Safety Report\*

The Annual Campus Security Report is an inclusive document which demonstrates campus crime statistics, the status of current security measures, as well as plans for implementation of improved security measures in the future. This annual report is made available via hard copy and electronic mail. If you would desire copies of this annual report, please contact the Office of Campus Security located in Elder Hall by calling 256-840-4167. No charge will be levied for copies provided. It is not necessary to make your request in writing.

Plans are documented and in place at this time to address a variety of actual emergency scenarios specific to each building on the Snead State Community College campus. Such emergency scenarios include: Hostage Situations, Fires, Medical Emergencies, Civil Disturbances, Inclement Weather, Hurricane Shelter Activation, Evacuation Procedures, Bomb/Bomb Threats, Hazardous Material Spills, Abusive or Assaultive Behavior, Shooter, Trespass Violations, Utility Emergencies, and School Closings. Each person responsible and designated as a specific Building Manager for each specific college building is responsible to ensure that fellow staff, adjunct instructors, and students are aware of specific emergency action plans as needed, and as appropriate to their building. This is also emphasized in trainings during the year. Each Building Manager has a copy of the plan, and is responsible along with Security to ensure fellow staff know what to do in the event of an emergency. Emergency information is also readily available on the school web site. Any questions may be directed to the Office of Security at any time if you have a question about emergency plans. If any Building Manager needs to request an additional plan, they could contact the Office of Security at 256-840-4167, or e-mail [pgore@snead.edu](mailto:pgore@snead.edu).

Plans have been put into place also regarding a satellite campus of Snead State, located in Arab, AL. As is the case on the main campus, Arab campus staff have an emergency plan and will generally respond much in the same manner as the main campus in Boaz. The plan covers all the same scenarios as the main campus plan stated above. In the case of emergencies at either campus, 911 should be notified initially and immediately upon recognition of an emergency situation.

At this time, the Security office employs one full time Director of Security and one part-time security person, as well as an additional staff member with expanded security duties on the main campus. The Office of Security disseminates and updates information as needed, and is available to consult and work with all parties on campus to ensure they are aware and comfortable with their specific building plan. Plans are always evolving and should never be considered a "finished product." The Snead State Community College Office of Security is available to work with each Building Manager and staff members in general to ensure there are no discrepancies or unexpected potential difficulties in the actual implementation of any of these emergency scenario response plans. If difficulties or schematic challenges are identified, plans will be developed to overcome such obstacles as much as possible. While often times, the logical and reasonable response in an emergency situation will be to call 911 and allow the local police or fire

department to respond, college security can and does address a wide variety of scenarios and is efficient in the resolution of the great majority of potential issues which arise on campus. Emergency plans may continually be updated as issues are identified. Plans can be subject to alteration in event of an actual emergency, depending on additional factors or further information which is developed during real time scenarios. All such plans are documented and on file as the "Snead State Community College Emergency Response Plan," and is updated as needed. Specific mock exercises and scenarios are scheduled and held as needed. SSCC Office of Security works closely with all local emergency responders, and has an excellent working relationship with additional agencies throughout the county and state. SSCC Office of Security also has an active working partnership with county EMA. Additionally, various components of the National Incident Management System framework have also been implemented and can be utilized as needed in a large scale emergency.

For the purposes of meeting Clery Act requirements, this annual report must include specific information relative to Snead State Community College located in Boaz, Alabama, as well as SSCC satellite campus (site) located in Arab, Alabama. The following information is set forth in response to these specific requirements. The Campus Crime and Security Act of 1990 and the Student Right to Know Act require that every institution report and make available information on certain specified crimes that have occurred on campus during the past three years. Any person who feels that a crime has occurred on campus or in an area contiguous to the actual physical campus should report the crime to the Snead State Community College Office of Security, which is located on the First Floor of Elder Hall Dormitory. You may either report in person, or contact the office by telephone at 256-840-4167 (office), 256-264-5060 (cell). You may also e-mail the Security Office; [pgore@snead.edu](mailto:pgore@snead.edu). Information required to be reported at this time is for the calendar year of 2012, but will also include two previous years. In effect, the campus crime information required to be reported in this report encompasses years 2010, 2011, and 2012. 2013 statistics will be reported in next years Annual Security Report, due for distribution on October 1, 2014.

For years 2010, 2011, and 2012, there were no reported incidents (offense charges or convictions) of aggravated assault, arson, manslaughter, motor vehicle theft, rape/sex offenses, robbery, or weapons violations. There was one (1) reported liquor law violation for 2010, one (1) reported liquor law violation for 2011, and (2) reported liquor law violations for 2012.

Any student or staff/faculty who observes, suspects, or has reason to suspect a crime has been, or is being committed should notify the appropriate law enforcement agency immediately by contacting the Boaz Police Department at 256-593-6812 for main campus issues and 256-586-8124 for the Arab campus. Certainly, in any emergency, call 911 and notify a staff member as soon as possible. Snead State Community College Office of Security should be contacted as soon as possible also, by calling 256-840-4167 (office), 256-264-5060 (cell). In response to a fire, medical emergency, or any immediate threatening emergency, please call 911 and explain your location and the events you are calling to report. Be as specific as possible and notify the Office of Security as soon as possible at one of the numbers listed above. In an emergency, when contacting College Security, it is best to contact them by calling 256-264-5060 (cell). They may also relay any emergency situation via radio/phone to security, local police, or both. It is always

recommended that the Office of Security be notified as swiftly as possible, so they can assist and be of guidance in the coordination of the response, or at a minimum at least be aware so decisions can be made regarding “timely warning” scenarios or additional actions which may be required. If you are unable to reach Security by the office number, please call the cell number 256-264-5060. This number/unit also serves as a southern linc radio. There are additional part-time security staff on campus at varying times in the evening and at night. Their contact information is available to campus instructors as well as adjuncts, and they may also be contacted as needed. Again, in any scenario of an emergency nature, please call 911 first. Snead State Community College does not provide security coverage seven days a week, 24 hours a day. However, most often security staff will be available to respond as notified after hours.

The Office of Security at Snead State Community College works closely with area law enforcement and emergency responders as needed. Any student or faculty/staff should feel completely confident in contacting either or both security and area law enforcement in an emergency situation, but it is always suggested you call 911 first in the event of an emergency situation and get assistance on the way immediately. The two will work together as needed to resolve the situation. Call 911 anytime you perceive an emergency situation which would most likely require an outside agency response (police, paramedics, fire department, medical emergency, car accident, etc). When in doubt, always call 911 first.

Students and other persons on campus may also notify any Snead State Community College employee of an event which should be reported. Every staff/faculty member at Snead State Community College as employees and representatives of the College, may be responsible at any time to respond in some manner to an emergency situation. Such responses may be required to protect the College, its students, and its property. Again, to report an emergency situation, please call 911, and notify the Office of Security as soon as possible by calling 256-264-5060. For all emergencies, call 911 first.

### Timely Warnings

In the event that a crisis/threatening situation arises, either on or near campus, or the Arab site, that in the judgment of the local municipality, EMA, and/or the SSCC Office of Security, constitutes an ongoing or continuing threat, a specific campus wide “timely warning” will be issued. The warning will be issued through the college e-mail and/or phone system to students, faculty, and staff through the schoolcast alert system. This will necessitate coordination between Security and the IT department. The IT Department has several additional staff trained to initiate schoolcast alerts should Security personnel be off campus or otherwise engaged. Any contract staff present within a building who may not have access to the e-mail system will be notified by the staff/faculty in closest proximity to their respective working area and/or thru their cell phone via Schoolcast. In such an event, the Office of Security will also effectively as possible oversee a physical effort to notify occupants in each specific building of the nature of the situation. Additional departments/staff could also be utilized in this effort. In the event of a threat, or other potentially dangerous situation, the Office of Security at Snead State Community College will work closely with the local police department and various emergency responders to accomplish

two priorities: 1) to reduce or remove the immediate risk to students, staff/faculty, and other persons on campus, by attempting to contain/isolate the threat and, 2) protect further individuals from being introduced into the emergency situation.

In all such emergency situations, when feasible, the President or his designee will be notified and will assume “administrative” control of the emergency procedure. When time does not permit such due notification, or when such persons are otherwise unavailable or off-campus, the Office of Security will enact such emergency measures it deems proper and prudent to protect threats to life and property. The Office of Security realizes there could be times when issuing a timely warning could serve to further congest or further complicate a response to an ongoing situation, or could serve to create additional confusion or panic when a situation has concluded or is being successfully resolved. In any instance where a timely response warning could in fact jeopardize or aggravate a situation, a decision will be made at that time as to whether it will issue the timely response. That discretion rests with the Director of Security.

#### Confidential Reporting Procedures

Snead State Community College has no mechanism in place at this time to accommodate confidential reporting of criminal activity or events. All reports of crime and misconduct are taken seriously and may be referred to the appropriate disciplinary (administrative), or criminal justice agency, depending on the nature of the offense being reported.

#### Access Policy

During business (functioning college) hours, the College (excluding specific housing areas) will be open to students, parents, employees, contractors, guests, community members, and invitees. During non-functioning hours, access to all College facilities is by key, if issued, or via admittance by a full-time staff/faculty member, or by a member of the Office of Security. Residence halls are restricted to occupants only, with the exception of their scheduled and/or registered guests during specific visiting hours. A scan card system is in use in the student housing area at this time, which is designed to grant access only to student occupants who are residing in the dormitory, 24 hours a day. Local law enforcement and EMT/Fire personnel also have access to enter the area if needed. Visiting schedules will continue to operate as usual. However, all visitors must be accompanied by authorized personnel or an authorized student (dormitory resident) and registered as a visitor. All visitors must enter through the front entrance of Elder Hall and be registered as a guest. The Office of Security provides training as needed to Housing Residents and Housing Resident Assistants as to how to respond in an emergency, and whom to contact in an emergency. Basic rules and regulations of the dormitory are also discussed and clarified among all dormitory students at the beginning of each semester, and throughout the semester as needed. The Office of Security meets regularly with housing Resident Assistants and the Director and Assistant Director of Housing. More intensive and specific Residential Assistant training is delivered prior to the beginning of the Fall semester. The Director of Housing

coordinates this training as it pertains to RA's, Elder Hall, and additional campus housing.

### Current Policy on Office of Security

It has been determined at this time that the Office of Security will not act as an armed police force on the Snead State Community College main campus or satellite campus. However, they do hold the discretionary power to initiate disciplinary action, and/or refer to local law enforcement for potential processing and adjudication. Security personnel have an outstanding working relationship with area law enforcement and emergency responders. They work together to accomplish the overall security objectives of the College. It is the policy of Snead State Community College that the Office of Security work with the College to provide an environment conducive to learning which is safe. While Security personnel do not presently hold the authority to arrest individuals (with the exception of observed felony offenses), the local police department does recognize their role, and normally concurs with their input and recommendations in responding to specific incidents on campus.

Security personnel routinely patrol the campus and are accessible to students, faculty/staff, and members of the public who spend time on campus. Snead State Community College adheres to the concept of the "open campus," and welcomes those with a desire to benefit from and contribute to the principles of higher education and cultural development. Security personnel conduct routine duties such as building security checks, lighting checks, student welfare checks, and communicate security concerns to students and College personnel as needed. The Office of Security is happy to provide escorts for staff/faculty and students as requested and as deemed appropriate. The SSCC Office of Security also maintains a Campus Daily Log in which incidents are recorded by nature, date, time of day, and disposition of recorded incidents. Additionally, the Snead State Community College Office of Security works closely with the local police department to share relevant information concerning campus activities, complaints, and any potential security concerns. The Office of Security has an "open-door" policy.

Snead State Community College Security Personnel have the authority to ask persons for identification and to determine whether individuals have lawful business at the College. They have the authority to issue parking citations to students, faculty, staff, and visitors. Criminal incidents and/or motor vehicle accidents are referred to the local police who have jurisdiction on campus for report purposes. All crime victims and witnesses are strongly encouraged to immediately report the crime to the local police department by calling 256-593-6812, or 911 for emergencies on the main campus (Boaz), or 256-586-8124 (Arab campus) and Security personnel by calling 256-840-4167, (office), or 256-264-5060 (cell). Prompt reporting to the Office of Security will help to assure "timely warning" on campus if conditions warrant. It is also essential to take all necessary steps to preserve a potential crime scene. Snead State Community College Security personnel will be happy to provide assistance in helping any student report an incident upon request for such assistance. All such instances will be handled absolutely as discreetly and professionally as possible.

### Security Awareness

During Orientation in August/September, students are informed of services offered by the Office of Security. Presentations and discussions are held which detail ways to maintain personal safety on campus. Resident Assistants also receive training in conflict resolution, preventing criminal opportunity, as well as CPR, First Aid, and Fire Extinguisher training. Housing students receive information which helps to assure residence hall security is maintained by not “propping” doors, and by discussing proper use and care of room keys and scan cards. Security also communicates helpful tips and basic information to the campus community regarding issues such as traffic safety and maintaining security of personal property while on campus. A common theme of awareness is to encourage students and employees to be aware of their responsibility for their own security and the security of others. It takes everyone on campus working together and communicating in order to enhance safety and security among the campus community. A priority is placed upon lessening the opportunities for criminal activity. When time is of the essence, information may be released to the College community through security alerts sent via the electronic mail system and/or phone system. In- person information will also be disseminated through the Office of Security when deemed appropriate, and the electronic mail system is used routinely to communicate with students and staff regarding security and safety issues. The Office of Security also offers periodic seminars on safety and security topics.

### Health Services and First Aid

Students needing emergency medical treatment while on campus should call 911, and contact a member of the administration, a faculty member, staff member, or the Office of Security. A student suspected or observed to be seriously ill or injured will be sent via ambulance to Marshall Medical Center South, in Boaz, Alabama. The expense of transportation, hospitalization, or emergency treatment will be borne by the student. Certainly, as with any emergency of an immediate nature, you should call 911 and then notify Security or any staff member as soon as possible in order to assure prompt communication. Office of Security and local responder contact information is also printed on the reverse side of your SSCC student vehicle hang tag.

### Sex Offenses

Snead State Community College will provide sex offense prevention programs as needed. Training to promote the awareness of rape, acquaintance rape, and additional forcible and non-forcible offenses will continue to be available and communicated to students. Additional training will be conducted for housing residents, along with Resident Assistant training. There is also training available in the area of substance use and abuse, and such “town halls” are held each year. Social Services personnel and local law enforcement are utilized in the delivery of such programs as scheduled.

It is essential to realize that if you are the victim of a sexual offense, you should report the incident as soon as possible. It is your decision to call 911, the Office of Security, or to notify an additional party you feel comfortable speaking to. You are strongly encouraged to notify Security by calling 256-264-5060, and local law enforcement 256-593-6812 (Boaz), 256-586-8124 (Arab) or (911), so they may initiate procedures to protect you and the rest of the campus in the event of an active and ongoing threat. Security personnel will be happy to help you make important decisions about who else you should notify if you request such assistance. Again, contact any staff/faculty member you feel comfortable in contacting. Security should be contacted as soon as is prudent at 256-840-4167 (office) or 256-264-5060 (cell). It is imperative that you be mindful that essential evidence may be lost if you clean up, use the restroom, shower, or douche after a sexual assault. By notifying law enforcement and Security personnel, all conceivable efforts will be made to protect you from further harm. The College will agree to make reasonable effort to assist you as needed with housing assignments and academic assignments if you are the victim of a sexual assault. The College will comply with any request for assistance in notifying authorities.

The accuser and the accused are entitled to the same opportunities to have others present during an administrative disciplinary proceeding; and both the accuser and the accused must be informed of the outcome of any institutional disciplinary proceeding that is brought alleging a sex offense.

The College may impose, upon a final determination of an institutional disciplinary proceeding, and upon a finding that the proscribed act was committed; expulsion. Please note that this administrative action may also result when a sexual offense is adjudicated by the criminal justice system, or even if it is not (depending on specific circumstances and procedural hearing). The College takes such behavior seriously, and will encourage victims to seek prosecution through the criminal justice system to the fullest extent of the law. However, the College also maintains that it is the victim's choice as to how to respond to such an offense. The College will play a supportive role in either scenario. A College representative and/or a member of the local police department will be happy to guide the victim through available options and support the victim in his or her decision. Various counseling options are also available through the use of local and non-profit agencies in the area. Snead State Community College Office of Security will help to provide referral services for anyone requesting such services.

Again, if you are the victim of a sexual assault, your first priority should be to get to a place of safety. You should then report the event absolutely as soon as possible and obtain medical treatment. The SSCC Office of Security strongly advocates that a victim of sexual assault report the incident in a timely manner. Filing a report with SSCC Office of Security will not obligate the victim to prosecute, nor will it subject the victim to scrutiny or judgmental opinions from officers. Filing a police report will assure that you receive necessary medical treatment and tests, at no expense. To restate, a victim of a sexual

assault may choose to pursue an investigation through the criminal justice system and the SSCC

disciplinary committee (involving the SSCC Office of Security), or only the latter.

Further disciplinary proceeding information is further detailed in the Student Handbook.

### Advising the Campus Community About Sex Offenders

Snead State Community College is required to receive notification from state and/or local law enforcement agencies in the event that a registered sex offender is enrolled at this College. Offenders are required under laws referred to as “Megan’s Laws”, to provide this information to the state. The information is then provided to specific college security departments. For detailed information concerning sex offender registration for this area, please consult the Boaz Police Department, 101 Line Avenue, Boaz, Alabama, 256-593-6812. [www.cityofboaz.org](http://www.cityofboaz.org). For Arab campus, please contact Arab Police Department, 1447 Hog Jaw Rd, Arab, AL 35016, [www.arabcity.org](http://www.arabcity.org). The Office of Security can also provide further information at the Office of Security, located in Elder Hall Dormitory, 404 W Mann Avenue, Boaz, Alabama, 35957, 256-840-4167. Snead State Community College is not required to request this information from law enforcement agencies. Rather, this information is required to be provided to the SSCC Office of Security by law enforcement officials having jurisdiction on each specific campus (city/county). While the College is required to inform the campus community where sex offender information can be accessed, the College is not required to disseminate sex offender information throughout the community.

### Emergency Response

Snead State Community College Security personnel do respond to all reports of campus criminal activity, campus medical emergencies, campus traffic accidents, and additional requests as deemed proper and appropriate (vehicle breakdowns, keys locked in car, suspicious persons, etc). SSCC Security personnel also respond to student-related incidents that occur in close proximity (contiguous areas of campus) to campus, when notified/requested. The Boaz Police Department and Arab Police Departments (Arab Site) maintain jurisdictions over each specific campus. However, the Office of Security has access to immediate communications with city police, fire department, and ambulance services to facilitate rapid response in any emergency situation involving our campus and/or our students.

### Missing Student Notification

Snead State Community College has adopted a formal “Missing Student Notification” protocol which will be enacted in the event a housing resident/student is determined or reported to be missing. In the event a housing resident/student has been missing for 24 hours, individuals should report this information to the Boaz Police Department 256-593-6812, AND/OR or to Director of Security Paul Gore in the Office of Security 256-840-4167 (office), 256-264-5060

(cell) at Snead State Community College (pgore@snead.edu). This information may also be reported to the Assistant Housing Manager Casey Underwood, 256-264-3595, and/or Director of Housing Jarrod Plummer, 256-840-4203. The Arab site (center) does not provide student housing.

Each student in Elder Hall (SSCC main campus student housing facility), and additional housing residents in campus managed property has the option to register a confidential contact person to be notified in the event that a student is determined to be missing. Only authorized campus officials and law enforcement officers in the furtherance of their duties may have access to this information. All students, even if they have not registered a contact person, should be aware that local law enforcement will be notified in the event of a missing student report. Students less than 18 years of age and not emancipated should be aware that their parent/guardian will be notified. In the event of a missing student notification/report, the report will be referred immediately to the Boaz Police Department by the Office of Security. In the event a student is observed to be missing for 24 hours, the missing student policy will be placed into effect. However, in the event of a missing housing/residential student where there is additional information which indicates a more immediate implementation; notification and police contact will take place as soon as possible, even if the 24 hour standard has not been met. Normally, the Director of Security will make this decision based on all available information.

#### Campus Housing Fire Safety (Annual Fire Safety Report)

Elder Hall is the primary student residential housing facility on the campus of Snead State Community College. It consists of two floors above ground, and a basement area. The basement is not utilized as a residential area. Floors 1 and 2 are utilized as student residential areas. There are multiple pull-station type fire alarm activation stations on each floor and at each entrance/exit, as well as stairwells. There are visual flashing fire alert modules located in multiple areas on each floor and are highly visible. Rooms are installed with sprinkler heads. There is also an accompanying high-pitched audible tone which can be clearly heard in the event any of the pull stations are activated. There are also multiple fire extinguishers located on each floor in the event of a very small, manageable fire. However, in all cases of a fire alarm activation, local responders will be dispatched to the housing area, located at 404 W Mann Avenue, unless the activation is the result of a planned test; in which the Office of Security will make contact prior with the local fire department. This is a monitored alarm system. SSCC main campus has expanded student housing into 5 additional residential (houses) locations in contiguous areas of the main campus. Each residence is equipped with fire extinguishers, smoke detectors, and occupants receive specific emergency, fire safety, and fire extinguisher training. All fire safety equipment is routinely monitored.

Resident Assistant's and students have been trained on the proper evacuation procedures for their respective floor within the main student housing facility, and specific residences. There are five entries/exits located on the primary student housing building located at Elder Hall. There are highly visible exit signs also located throughout the building which highlight exit points. The

fire alarm system in the housing area also possesses sprinkler capability. There are fire panels which are accessible only by key to reset and silence the system.

There have been no fires reported in Elder Hall for this reporting period. The Office of Security conducts fire alarm equipment tests, and also conducts fire drills. The system is monitored and checked regularly. The fire panels, system, and extinguishers are all inspected several times during the week on routine rounds, and routinely checked by fire safety contractors. Plans are underway and actually now in progress to upgrade some systems across campus which are older than some of the systems in the newer or recently renovated campus buildings. There have been no fires reported in additional student housing located adjacent to main campus for this reporting period.

Additional training has been given to Resident Assistants and Housing Managers concerning Fire Safety this year. Fire safety will continue to be a point of emphasis in the student/resident housing areas. Additional fire extinguisher operation training is also scheduled to be given to the Resident Assistants and interested staff and faculty through Boaz Fire Department and SSCC Office of Security. However, at this time, students and staff are advised to clear any building where a fire is present and report by calling 911 and state the location of the fire. Local fire fighters also have immediate access to student housing in emergencies by utilizing an issued SSCC emergency scan card, thus ensuring immediate entrance into the main student housing building at any hour. Alternate arrangements have been made for additional student residences in which to facilitate easy access by security/emergency staff if needed.

In the event of a fire, any student or staff member, or visitor should call 911 and report the location of the fire. The area should be completely vacated as soon as possible (all floors). Students and RA's are trained in the "nearest clear exit" concept of evacuation from the building. In the event of a fire, the Office of Security should be notified as soon as possible by calling 256-264-5060. If necessary, the Office of Security and Boaz Fire Department will work together to clear the building and/or check areas of concern to help ensure student accountability and safety in the event of a fire. In any such scenario, student, staff, and visitor safety will be the priority. The SSCC Office of Security and local Boaz Fire Department have met frequently and discussed scenarios and response protocols. Local fire, as well as local police, have access capability to Elder Hall (main campus primary student housing building) 24 hours a day, 7 days a week for emergency and duly authorized access.

#### Student Housing Policies Regarding Electrical Appliances, Smoking, and Open Flames

All appliances within Elder Hall must have an automatic shut-off or timer. Open-coil appliances are not allowed in Elder Hall or student houses. Gasoline, kerosene, propane or propane tanks, and/or any other flammable/combustible substance shall not be stored in or around any residence unit or within proximity of the building. Heating units fueled by such materials are not allowed.

Candles, oil lamps, incense, or any device producing an open flame is prohibited within student housing. Disciplinary action and/or legal action could result for anyone intentionally starting an open flame in the student housing building. Similar policies exist in expanded student housing locations.

### Policy on Drugs, Alcohol, and Weapons

The presence, possession, or use of illegal drugs and/or alcohol while on the Snead State Community College campus is prohibited. Possession of any firearm or dangerous weapon or destructive device is prohibited, except those possessed by lawful, duly certified law enforcement authorities in the performance of their official duties. College disciplinary and/or referral to the criminal justice system could result from violating the policy on illegal drugs, alcohol, and weapons.

### Severe Weather

In the event or expectation of severe weather, announcements will be made in all class areas if classes are to be dismissed. College personnel will notify students in the event of a severe weather alert or other emergency situation. Individuals should follow the directions of College personnel in an emergency situation. (Schoolcast alerts may also be utilized in such scenarios and will be initiated by the College Security and/or IT Department). During non-school hours, area radio stations will be notified:

WAFN-WRAB	Arab	92.7 FM	1380 AM
WAVU-WQSB	Boaz-Albertville	630 AM	105.1 FM
WBSA	Boaz	1300 AM	
WAAX	Gadsden	570 AM	
WGSV-WTWX	Guntersville	1270 AM	95.9 FM
WCRL-WKLD	Oneonta	1570 AM	97.7 FM
